## Introduction

## What Are AI Prompts?

AI prompts are the instructions you give to large language models (LLMs) like Grok, GPT, or Claude to produce desired outputs. Effective prompts turn vague ideas into high-quality, targeted content.

**Core Elements of a Good Prompt:** - **Role:** Define who the AI is (e.g., 'You are an expert e-commerce copywriter'). - **Context:** Provide background info. - **Task:** Clearly state what to do. - **Format:** Specify structure (bullets, length, tone). - **Examples:** Few-shot learning for style. - **Constraints:** Keywords, word count, SEO rules.

**Zero-Shot vs. Few-Shot:** - Zero-shot: Direct task. - Few-shot: Include 1-3 examples.

## Why Prompts for E-Commerce?

E-commerce thrives on compelling content: - **Product Descriptions:** Drive conversions by 20-30% with persuasive copy. - **SEO Titles:** Improve click-through rates (CTR) by ranking higher. - **Emails:** Boost open rates (25%+) and recovery sales (10-15%).

AI prompts enable: - Scalability for thousands of products. - Consistency across brands. - Personalization at scale. - A/B testing variants.

## Prompt Engineering Basics

1. **Specificity:** "The more details, the better."
2. **Tone & Voice:** Match brand (fun, professional, luxury).
3. **Call to Action (CTA):** Always include.
4. **SEO Integration:** Natural keywords.
5. **Iteration:** Refine based on outputs.

### Example Evolution:

V1: "Describe a phone."  
V2: "Write a 150-word description for iPhone 15, highlight camera, battery, design. Bullet features, exciting tone."

---

## Product Descriptions

### Best Practices

- Length: 100-300 words.
- Structure: Hook, features/benefits, specs, CTA.
- Benefits over features.
- Sensory language.
- Bullet points for scannability.
- Keywords naturally.

## Prompt Templates

### Basic Template:

You are [role]. Write a [length]-word product description for [product]. Features: [list]. [Tone]. Structure: Hook, bullets, CTA. Include keywords: [keywords].

### Advanced:

Act as [role]. Step 1: List benefits. Step 2: Write engaging hook. Step 3: Format with bullets. Product: [product]. Constraints: [rules].

## Examples

### 1. Fashion - Organic Cotton T-Shirt (Example 1/40+)

#### Prompt:

You are a sustainable fashion copywriter. Write a 200-word description for men's organic cotton t-shirt. Features: 100% GOTS-certified cotton, breathable, 5 colors, S-XXL, pre-shrunk.
